2012+ FORD RANGER - Double Cab (FR17)

PATENT PENDING

300KG CAPACITY

CENTRAL LOCKING COMPATIBLE

Transform your Ute's wellside into a weather resistant work bench capable of holding 300KG

- Solid 4mm Aluminium 5 bar chequer plate
- Unsurpassed 300kg Load capacity
- Integrated rails with eight tie down points
- Heavy duty 1050Nm struts
- Substrate and mounting brackets manufactured with stainless steel, they are not galvanised, zinc plated, or powder coated to remove risk of rusting.
- No drill fitment which means no holes are made in your wellside
- No plastics / metal finishing's that can fade, become brittle or rust over time.
- Heavy duty cast aluminium twist handle and slam latch closing
- Central locking compatible
- Weather and dust resistant
- Smooth sanded edge around the hardlid, no rubber capping used to cover raw edge giving a sleek finish.
- Branding plate at rear of hardlid acts as a second form of security *(tailgate cannot be opened when lid is closed and locked)*
- Quick and easy to Install / Remove and Reinstall *(Suits people who want to have the benefit of a Hardlid but also have the flexibility be able to take it off when needed)*
- Hard wearing powder coat finish in Oasis black
- MACGAP 100mm and 150mm compatible
