MAC G A P

Easy to use, the MACGAP allows you to close and lock the lid and leave a 100mm or 150mm gap for airflow into the wellside, suitable for dogs or to give you that little bit of extra room when transporting long or higher objects like surfboards, fishing rods or timber.

Made from high quality stainless steel the stylish MACGAP is the perfect accessory and is compatible with all of the MAC Hard lid range. Available in 100mm or 150mm sizes.
