

## VA17FS - 2018+ VW AMAROK AVENTURA

**Transform your Ute's deck tray into a weather resistant work bench  
capable of holding 100kg**

- Solid 4mm Aluminium 5 bar chequer plate
- Fits VW factory Sail plane on Aventura model.
- 100kg Load capacity
- Substrate and mounting brackets manufactured from high grade stainless steel, they are not galvanised, zinc plated, or powder coated to remove risk of rusting.
- No drill fitment which means no holes are made in your wellside
- No plastics / metal finishing's that can fade, become brittle or rust over time.
- Single centralised flush pop up T-handle with dust cover and slam latch closing.
- Weather and dust resistant
- Smooth sanded edge around the hardlid, no rubber capping used to cover raw edge giving a sleek finish.
- Branding plate at rear of hardlid acts as a second form of security (*tailgate cannot be opened when lid is closed and locked*)
- Available with tracks fitted. Tracks are compatible with Rhino Rack / Thule products. Tie down kit consisting of four removable and relocatable tie down points and two tie down straps is included with this lid.
- Single lock / key to secure and lock the hardlid (*central locking option will be available soon*)
- Quick and easy to Install / Remove and Reinstall (*Suits people who want to have the benefit of a Hardlid but also have the flexibility be able to take it off when needed*)
- Hard wearing powder coat finish in Textured Oasis black
- MACGAP 100mm and 150mm compatible
- VW New Zealand endorsed product
